

A SOPHISTICATED SOFTWARE SOLUTION FOR PROFESSIONAL ID PROGRAMS

Powerful, modular platform

With separate packages for design and production, Datacard ID Works Enterprise identification software lets you distribute tasks effectively and pay only for the features you need at each workstation. Modular components include:

- **ID Works Enterprise Designer** facilitates the design of cards and reports, as well as production forms with binary fields and event handler-based button fields. Connects to databases and directory services.
- **ID Works Enterprise Production** captures images and biometric templates. Manages production of cards and reports. Handles data storage, including non-displayable binary data.

Datacard® ID Works® Enterprise identification software provides powerful, user-friendly tools for card design, secure card production and flexible management of complex, integrated ID programs.

- **Biometrics and smart cards.** The software offers smart card support (proximity plug-in) to simplify smart card personalization management. You can also design multi-application smart card programs with the ID Works Software Developer's Kit.
- **Intuitive design tools.** Enterprise software enables you to design cards, reports and production forms with speed and simplicity. Shape drawing, transparent backgrounds and ghost images help customize cards. The application lets you integrate production forms with ODBC-compliant, multiple-table databases. Enterprise Designer software also allows you to access ID information stored in a directory service via the Lightweight Directory Access Protocol (LDAP).
- **Enhanced operational productivity.** Simple, powerful interfaces make it easy to capture images, enter and retrieve data and print cards and reports. The Education Support Pack includes SASI and Lifetouch plug-ins for easy image import and export. Enterprise Production software also offers enhanced password security for tighter control over user access.

Datacard ID Works Identification Software Compatibility Feature Set

	INTRO SOFTWARE	BASIC SOFTWARE	STANDARD SOFTWARE	ENTERPRISE SOFTWARE
IMAGE FILE INPUT	4	4	4	4
TRU PHOTO SOLUTIONS	4	4	4	4
TWAIN CAPTURE / VIDEO FOR WINDOWS	4	4	4	4
MICROSOFT ACCESS DATABASE	4	4	4	4
MAGNETIC STRIPES AND BAR CODES	4	4	4	4
GHOST OPTION FOR PHOTO FIELD		4	4	4
TEXT FILE IMPORT/EXPORT TO MICROSOFT ACCESS		4	4	4
MODULAR PACKAGES FOR CARD DESIGN AND PRODUCTION			4	4
ID WORKS VISITOR MANAGER SOFTWARE			4	4
TRU SIGNATURE			4	4
MULTIPLE-TABLE ODBC DATABASES			4	4
SDK SUPPORT			4	4
PROXIMITY CARD PLUG-IN FOR SMART CARDS			4	4
SASI AND LIFETOUGH PLUG-INS				4

DATACARD ID WORKS ENTERPRISE IDENTIFICATION SOFTWARE

For a complete list of software features and specifications, please visit www.datacard.com/IDworks

Standard Features

Flexible card, report and production form design

User-defined card size (CR50, CR80, Custom)
Auto-create production form
Shape drawing support
Font sizing and colors
Multiple field selection, alignment and formatting
Copy card and report designs between projects

Field types

Variable text (with masking); Static text (with word wrap option); Photo (with border; ghost or transparent background option); Date; Bar code (22 types, including PDF417 binary support); Magnetic stripe; Static and variable graphic (with ghost and transparent color options); Non-printable area; List; Composite; Print count; Auto sequence; Signature; Smart card; Binary field; Event button; PDF417 binary bar code support

Image management

In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
Image and signature storage as BLOBs or files
Multiple images per record
Crop and adjust existing photo
Batch import/export photos and images from production

Production and data management

Data-driven production
Supports multiple-table databases
Supports Software Developer's Kit

Proximity card plug-in
SASI and Lifetouch plug-ins
Auto-create Microsoft® Access 2000 database

Database management

Quick, advanced and stored searches
Retrieve records from "today"
Retrieve records from "this week"

Database support

Oracle® Oracle8i, Oracle9i and Oracle10g®
LDAP-compliant directory services (such as Microsoft® Active Directory®)
Microsoft Access 2000 and later
Microsoft® SQL Server™ 2000 and 2005
IBM® DB2® Universal Server 7.1 and 8.1

Help features

Online user's guide
Online help
Help desk support

Security features

Wizard for managing user account privileges
USB hardware security key
Application- or activity-level user security (per computer or system-wide)
Login timeout feature
Restrict project access by user
Secure user audit trail
Enhanced user password security
Expiration of password after user-defined number of days

Compatible with the extensive line of Datacard® card printers

Image capture options

File input
Datacard® Tru™ Photo solutions
TWAIN capture devices
Video for Windows capture devices
Datacard Tru Signature solution
ID Works Visitor Manager solution

System Requirements

Operating system

Microsoft® Windows® 2000, XP or Windows Vista®

Web browser

Internet Explorer v6.0 or later

Memory

512 MB RAM
100 MB hard disk space for application (not including database)

Color

16-bit color (65,536 colors)
(Cameras may require higher color)

Resolution

800 x 600 screen resolution (1024 x 768 recommended)

Peripherals

CD-ROM drive
Available USB port
