BAR CODE LABEL PRINTING  
SOFTWARE FOR THE POCKET PC

# Pocket LABEL MATRIX®

## Bar Code Label Printing Software for the Pocket PC.

Looking for a Pocket PC-based label printing solution that offers advanced features like full WiFi compatibility and database support, while still being easy to use? Then Pocket LABEL MATRIX® is the software solution for you.

Pocket LABEL MATRIX is a powerful, flexible, and easy-to-use Pocket PC-based solution for printing bar code labels. It allows you to take labels created in LABEL MATRIX label design and printing software, download them to your Pocket PC, and print them using a direct or wireless connection.

Pocket LABEL MATRIX Main Menu

VARIABLE DATA FEATURE	DESCRIPTION
Keyboard Input Fields	Prompt the user for the field value at print time.
Date and Time Stamps	At print time, the date/time is taken from the Pocket PC's operating system.
Formulas	Configure formulas like expiration dates and box count fields (Box 1 of 10, Box 2 of 10, etc.) to meet the needs of any application.
Database Support	Offers greater level of data accuracy. Local storage of database files for mobile convenience.
Counters (on self-incrementing printers)	Print incrementing numbers such as serial numbers, shelf numbers, coupon/ticket numbers, etc.
Command Files	Print labels automatically by monitoring a predefined folder for the presence of command files (simple instruction files).

### Powerful

Includes advanced printing features for variable data like database fields, formulas, keyboard input fields and more.

### Flexible

Choose from a variety of printing options (Wired, WiFi, and Batch printing), and print to any of over 650 supported thermal and thermal transfer printers.

### Easy to Use

Fully integrated with LABEL MATRIX label design software — design once for either platform. Pocket LABEL MATRIX's Graphical User Interface offers intuitive navigation.

### How it Works:

#### 1. Design Your Label in LABEL MATRIX.

Just select a printer and design your label using text, bar codes, graphics and more.

2. Select and Download Your Label. Download process is quick and easy, with any associated graphic files and database files automatically downloaded along with the label design.

3. Print Your Labels Using a Direct or Network/Wireless Connection. Just select the label to print, enter any required variable information, and print wirelessly or to a wired connection.

#### 1. Use existing label designs or create new labels using LABEL MATRIX:

- Date/time fields
- Keyboard input fields
- Database connections

#### 2. Select & download the label designs required on the Pocket PC:

- Graphic files and databases are automatically downloaded with the label design
- Download via ActiveSync® on the PC or sync multiple devices via Windows networking

#### 3. Use your Pocket PC to scan data & print labels without wires:

- WiFi compatible
- Or batch printing jobs
